

First Preference to Precision & Perfection

Complete Range of Non Original  
Replacement Spares for all **weaving machines**

Spares for

**AIRJET • RAPIER • PROJECTILE**

Picanol • Sulzer • Somet • Vamatex • Nuovo Pignone • Toyoda • Dornier • Tsudakoma

**ARUN SHUTTLE INDUSTRIES**

# ABOUT US

## Roots & Reach.

Arun Shuttle Industries was founded as a privately owned company in 1982, as a manufacturer of non original textile spinning and weaving machinery spares. We are a progressive and professional ISO 9001 : 2008 certified company located at Ahmedabad (India).

Since our Inspection in 1982, we have gradually grown from product to product and now we manufacture and supply more than 4000 different non original replacement spares for spinning and weaving textiles. Today the journey we started with 1 manufacturing plant and 10 people have grown to 4 manufacturing plant with more than 300 people.

## Manufacturing Facility

## Inhouse Tool Room.

Mass production of most textile machinery spares require precision press tools to produce press metal parts. We manufacture tools & dies within our own tool rooms.

We have the most well equipped tool design & tool manufacturing facilities among all textile machinery spares manufacturing companies in South Asia. Precision state-of-art CNC machines for milling, spark erosion, wire cut operations, fine surface grinding are in operation.

We also have separate group of engineers specialized in tool design capability for developing of press toll using contemporary software tools.
